EDUCATION

B.Tech – Electronics & Communication Engineering
Arya College of Engineering & IT, Jaipur
2024 – Present
CGPA: 8.15/10 (up to 4th Semester)

Class XII
Parshv International Senior Secondary School (2024)
78.80% | **JEE Main: 85.359** NTA Score

Class X
Saraswati Vidhya Mandir Senior Secondary School (2022)
82.00%

TECHNICAL SKILLS

Programming	:	Python (Basic), C, C++
Microcontrollers	:	Arduino Uno, ESP32
Sensors & Actuators	:	Ultrasonic, IR, Servo Motor, DC Motor, Motor Driver, 16×2/I2C LCD, Buzzer
Electronics	:	Breadboard circuits, basic electronics, multimeter testing, soldering & basic PCB work
IoT	:	Basic IoT concepts and ESP32 implementation
Programming	:	C, C++, Python (Basic)
Tools	:	AutoCAD (Basic), MATLAB/Simulink (Basic)

AREAS OF INTEREST

PLC & Industrial Automation | Instrumentation | Industrial Electronics | Embedded/IoT Systems | Control & Automation

CERTIFICATIONS

- The Ultimate Job Ready Data Science Course – CodeWithHarry (Jul 2026)
- Complete 2026 Python Bootcamp: Learn Python from Scratch – CodeWithHarry (Jul 2026)
- **Programming in C** – Infosys Springboard
- **Essential C++** – Infosys Springboard
- **C Essentials 1** – Cisco Networking Academy
- **AI for Beginners** – HP LIFE
- **Generative AI Studio** – Google Cloud & Simplilearn
- **Eureka Pitching Competition** – ACEIT

CAREER OBJECTIVE

As a B.Tech student in Electronics and Communication Engineering, I am interested in Python programming, Data Science, and Machine Learning. I have completed the Python Bootcamp and Job-Ready Data Science courses from CodeWithHarry and want to apply my learning to practical projects. I am looking for an internship where I can work with an experienced team, improve my technical skills, and gain real-world industry experience while contributing with dedication and a willingness to learn.

PROJECTS

Smart Dustbin – Arduino Uno

- Built and tested an automatic dustbin using Arduino Uno, ultrasonic sensor, servo motor, 16×2 I2C LCD and buzzer; handled wiring, implementation, testing and troubleshooting.

Arduino-Based 3D Ventilator Model

- Worked in a 3-member team on assembly and implementation; handled/managed the control code and supported system operation through code.

Robo Car

- Built two Robo Cars as part of college activities.

ShopKart Website

- Basic HTML, CSS & JavaScript e-commerce website; customized images, layout and minor UI improvements.

INTERNSHIP EXPERIENCE

AI/ML Intern – Empire Edge Solutions & Business Consultant
Duration: 60 Days

- Gained basic exposure to Python, Machine Learning concepts and datasets/data handling.

EXTRACURRICULAR

- Volleyball & Basketball
- Singing

"Small steps today, big dreams tomorrow"
